Mr. Rick Cortez
President / CEO
MCA Communications, Inc.
525 Northville
Houston, Texas 77037

Dear Mr. Cortez:

Subject: Expression of appreciation

Lockwood Greene recently completed the construction of the Dr. Frankel Cancer Center on the Temple Life Science Campus in Temple, Texas. During the five-month construction effort, we had the opportunity to work with over twenty-five sub contractors and sub sub contractors. The schedule was compressed and the construction crew peaked at 80 contractor personnel on site working within a 17,000 square foot area.

At times the job site was a bit chaotic as the many crafts people competed for space and right-of-way for the installation of their materials. The subs were required to coordinate and schedule their different activities on a daily basis.

By far, the most professional construction crew that Lockwood Greene dealt with was from MCA Communications, Inc. Your superintendent, Noe Herrera, and his team were always polite, punctual and cooperative. Their focus on safety and willingness to follow the site work rules were an example for all the other crafts. Noe consistently met his scheduling commitments, and the quality of the cabling and equipment installation was the best I have ever seen. The crew exhibited a great attitude and responsiveness to the specific needs of the Scott & White IT group.

It was a real pleasure to have worked with MCA and to have met Noe Herrera. Lockwood Greene and I would like to express our appreciation for the effort your team expended. We wish MCA continued success on all your future projects.

Thank you,

LOCKWOOD GREENE
